TECHNOLOGY AND ENTERPRISE BUSINESS SOLUTIONS (TEBS)

Montgomery County Regulation on:

TRANSMISSION FACILITY COORDINATION GROUP APPLICATIONS

Issued by: County Executive

Regulation No. 17-22

Authority: Montgomery County Code, 2014, Article III, Section 2-58E

Supersedes: Executive Regulation No. 21-02AM

Council Review: Method (2) under Code Section 2A-15

Register Vol. 40 Issue 3

Effective Date: _____

Comment Deadline: March 31, 2023

Summary: This proposed Executive Regulation modifies the categories and requirements for applications submitted to the Transmission Facility Coordination Group (TFCG) and updates the Regulation so that it complies with current practices and law. The categories are being clarified and a category for resubmissions is being added so that the County may recover the cost of reviewing revised applications. The Regulation proposes to modify the application requirements related to radiofrequency emissions and to FCC compliance and to ensure they comply with current law and practices.

Address: Montgomery County Office of Broadband Programs
Council Office Building
100 Maryland Avenue
Suite 2600

MONTGOMERY COUNTY CODE CHAPTER 2, SEC. 2-58E [TELECOMMUNICATIONS] TRANSMISSION FACILITY COORDINATION – REGULATIONS

COMCOR 02.58E.01 Transmission Facilities Coordination Requirements

02.58E.01.01 Authority.

This Executive Regulation is authorized by Montgomery County Code [1994] 2014, as amended, Section 2-58E, [“Telecommunications facility coordination”] Transmission Facility Coordination, and applies to all [telecommunications] transmission facilities (TTFs) as defined herein.

02.58E.01.02 Administration.

- a. Delegation of Authority. Code Section 2-58E directs the Director of the Department of Technology [Services] and Enterprise Business Solutions to establish a procedure for the review of siting and modification applications. In furtherance of that procedure, the Director must maintain a record of the location of all TTFs within the County and ensure the appropriate and efficient placement of the facilities.
- b. Submission of Applications. All applications pertaining to the siting or modification of a [telecommunications] transmission facility by certain government agencies and private parties must be coordinated by this procedure.
- c. Application Review Period. All applications must be reviewed in an efficient and timely manner, with the objective of final disposition occurring within 60 days after the date a complete application has been submitted to the Tower Coordinator. The applicant must be advised of the reason for any delay beyond this period.
- d. Meetings. All required meetings must be scheduled so as to meet the 60-day time frame goal for completing the review of an application.
- e. Reporting. As appropriate, the Director must report to the County Executive and the Council regarding matters pertaining to this procedure.
- f. Database Administration. As part of the coordination process, a database must be maintained for all [telecommunications] transmission facilities located in the County, including any that the Director knows are proposed to be located in the County.
- g. Fee. Applicants must pay the following fees:

Charge Categories

- 1[D)]. Annual fee - Fee to be paid when the annual plan is submitted. The annual fee is charged for updating and maintaining the database, oversight, and the review of the annual plan.
- 2[D)]. [Minor] Modification - The application fee for any of the following modifications that require a building permit:
 - i. a modification of existing antennas at a single site; or
 - ii. the addition of antennas at a single existing site; or
 - iii. a change or addition of equipment at a single existing site.
- 3[D)]. [Multiple Modifications] Attachment to existing structure - The application fee for [any of the following multiple modifications that require a building permit] the use of an existing structure to support new antennas permitted by right or as a limited use under the zoning ordinance.:
 - i. a modification of antennas at two or more sites; or
 - ii. the addition of antennas at two or more existing sites; or
 - iii. a change or addition of equipment at two or more existing sites.]
- [4) 4]. Co-location on existing structure – The application fee for the use of an existing structure to support new antennas permitted by right under the zoning ordinance.]
- [5) 4]. New support structure, permitted use - The application fee for the construction of a new antenna support structure that is permitted by right or as a limited use under the zoning ordinance.
- [6) 5]. New support structure, [special exception] conditional use or mandatory referral - The application fee for the construction of a new antenna support structure that must be authorized as a [special exception] conditional use or reviewed by the Maryland-National Capital Park and Planning Commission.
6. Resubmission fee - The fee for the review of an application that is deemed incomplete and that requires additional review. Each time a Request for Information (RFI) is issued, a resubmission fee will be assessed to recover the cost of the additional review.

All fees must be submitted to the Office of [Cable Communications] Broadband Programs, 100 Maryland [Ave.] Avenue, Suite #[250] 2600, Rockville, MD 20850, by

check or electronic payment, prior to submitting the application or annual plans. The application will not be reviewed until all fees have been paid.

02.58E.01.03 Definitions.

The words or phrases described below have the following meanings as used in this Regulation:

- a. Land-owning Agency. Land-owning Agency means any government agency which owns or controls any land on which a [telecommunications] transmission facility is located or proposed to be located.
- b. Land Use Agency. Land Use Agency means the Planning Board, the County Board of Appeals, the Department of Permitting Services and any other public agency or body with regulatory jurisdiction over the siting of any [telecommunications] transmission facility, including any municipal land use agency or body.
- c. [Telecommunications] Transmission Facility. [Telecommunications] Transmission Facility means any antenna, tower, monopole, or other structure used primarily to receive or transmit wireless voice, data, or image information (or any combination of them).
- d. [Telecommunications] Transmission Facility Coordinating Group. The [TTFCG] TFCG is that body convened by the Director as prescribed in Section 2-58E(d) of the Montgomery County Code [1994, as amended,] to review, comment and facilitate communications between member agencies on [telecommunications] transmission facility policy and siting issues.
- e. Tower Coordinator. The Tower Coordinator is the Director's designee or contractor who administers Section 2-58E of the Montgomery County Code.

02.58E.01.04 Application Submission.

- a. An application for siting of a [telecommunications] transmission facility must meet the following requirements:
 1. [An] an application must be submitted to the Tower Coordinator[.];
 2. [Three copies of each application must be submitted.] each application must be complete and filed on a form in accordance with 02.58E.01.09 of this regulation. Incomplete applications will not be processed;
 3. [Each application must be complete and filed on a form in accordance with 02.58E.01.09 of this regulation. Incomplete applications will not be processed.] proprietary information submitted with an application must be clearly marked as

being confidential. Applicants should minimize, to the extent possible, the use of confidential data in order to facilitate rapid governmental interagency coordination; and

4. [Proprietary information submitted with an application must be clearly marked as being confidential. Applicants should minimize, to the extent possible, the use of confidential data in order to facilitate rapid governmental interagency coordination.] an application for a new support structure or monopole must include: an explanation as to why the site was selected and why the structure is needed; an identification of any sites that were rejected; and an explanation as to why any sites were rejected; and
5. [An an application for a new [tower or monopole] support structure that is greater than 50' in height must also include [the following]: RF propagation maps; a photograph of a balloon test at the proposed site that shows the approximate top of the tower, if available; a Federal Aviation Administration application or certification, if available[; an explanation as to why the site was selected; an identification of any sites that were rejected; and an explanation as to why any sites were rejected].

b. For each submitted application, the Tower Coordinator must:

1. [Stamp] stamp the date and time of receipt [on all copies] of each application and register the application in the Wireless Communications Site Applications database and/or logbook[.];
2. [Assign] assign each application an application number yyymm-nnn, herein called the Wireless Communications Site application number, where "yyyy" represents the year, "mm" represents the month, and "nnn" represents the sequence (001, 002, 003) , etc. [for the first three applications submitted during the year "yyyy" and the month "mm."] of applications submitted since the inception of the online application system; and
3. [Distribute copies to the appropriate agencies and return one copy to the applicant upon final disposition of the siting request] make the application available to the public and to government agencies by posting it online.

02.58E.01.05 Application Review.

a. The Tower Coordinator must:

[telecommunications] transmission facility [special exception] conditional use[.];
and

2. [Refer] refer to the Tower Coordinator any building permit or [special exception] conditional use application submitted directly to the agency.

[d.].c. The [Telecommunications] Transmission Facility applicant must:

1. [Submit] submit a [telecommunications] transmission facility location plan in accordance with Section 2-58E of the Montgomery County Code and Attachment 2 of this regulation[.]; and
2. [Update] update the plan each year.

02.58E.01.06 [Telecommunications] Transmission Facility Coordinating Group Review.

- a. The Tower Coordinator must coordinate and assist the Group Chair in scheduling the meetings of the [Telecommunications] Transmission Facility Coordinating Group. The applicant must be notified of any meeting at which its application is considered[,] and be allowed to attend the meeting.
- b. The Chair or the Chair's designee must conduct the meeting. A written record of actions and recommendations must be maintained by the Tower Coordinator.
- c. Group review of an application may include:
 1. [The] the written recommendation of the Tower Coordinator with database details where appropriate;
 2. [Any] any comments of the land-owning agency and land-use agency; and
 3. [Any] any other relevant information concerning the proposed siting of the [telecommunications] transmission facility.
- d. A written review and recommendation must be [prepared] posted online.[:
 1. One copy must be maintained by the Tower Coordinator in the application file.
 2. One copy must be provided to the applicant.
 3. One copy must be sent to the County Board of Appeals if a special exception is required.

4. One copy must be sent to the Department of Permitting Services and/or any municipal agency that would issue permits for such use.
 5. One copy must be sent to the land owning agency, if appropriate.]
- e. The Group may delegate to the Tower Coordinator any functions necessary to promote the efficiency of the process in accordance with the provisions of the County Code.

[02.58E.01.07 Leases.

- a. The recommendations and comments of the Telecommunications Transmission Facility Group must be provided to the relevant land owning agency for use during the negotiation of any lease for placement of a telecommunications transmission facility on land within the control of a land owning agency.
- b. A form lease must be developed by the Tower Coordinator and be made available for the use of the land owning agencies.
- c. Any lease must include a provision requiring the removal of the facility by the lessee after the useful life of the facility concludes or upon expiration or termination of the lease, and may include the posting of a bond to guarantee removal.]

[02.58E.01.08] 02.58E.01.07 Building Permit.

- a. A building permit is required for the construction of a [telecommunications] transmission facility in the County.
- b. All permit applications must reference the Wireless Communications Site application number[,] and must include the recommendation of the [Telecommunications] Transmission Facility Coordinating Group [and the approval of the land owning agency, if applicable].
- [c. Building permit approvals may be expedited if copies of standard construction drawings are on file with the permitting agency.]
- [d. Upon issuance and release of the building permit, a copy of the permit will be sent to the Tower Coordinator for filing with the application and supporting documentation. A copy of the site plan and construction drawings will be furnished to the Tower Coordinator upon request for use in updating the database.]

[02.58E.01.09] 02.58E.01.08 Wireless Siting Application.

Attachment 2

GUIDE FOR WIRELESS SERVICE PROVIDER FACILITY LOCATION PLANS

Montgomery County Code Section 2-58E requires [sponsors of] applicants for wireless communications facilities to submit annually [revised] antenna site planning information for proposed system construction or enhancement within Montgomery County.

The following information is required by the County to assist in planning activities and analysis of co-location opportunities. Applicants must submit a projected growth plan for antenna sites[,] and must update that plan at least annually. More frequent updates are recommended if information submitted in the previous plan changes significantly. We recognize that site specific information may not be available until late in the implementation process. However, the County desires that information submitted in the plan be as detailed and complete as possible.

1. In what geographical areas of Montgomery County will new [service be provided or existing service (requiring additional site facilities)] facilities be upgraded or constructed? (Be specific, such as “Rte. 270 corridor from Shady Grove to the Comus exit,” or “Along Rte. 29 from the D.C. line to the Beltway,” or “at the bottom of the Piney Branch stream valley in Takoma Park,” etc.)
2. On a [large scale] large-scale map such as the Street Map of Montgomery County, Maryland, prepared by The Maryland-National Capital Park and Planning Commission (scale 1" = 3000'), show the location of existing towers or monopoles, indicate whether each is owned or leased, and show where new antenna sites are anticipated. Locate as accurately as possible, preferably within 0.2 mile or less, or indicate specific sites, if known.
3. If specific sites are known, with respect to each site, state the [addresses and how each site is presently utilized, e.g., water tank, apartment building, shopping center, fire station, open (or wooded) lot, etc. If antennas will be placed on an existing tower or monopole on the site, who owns it?] address, name, latitude and longitude, structure owner and structure type.
4. If any new structures or new attachments are planned, describe the anticipated [configuration] structure type (monopole, self-support lattice tower, guyed tower, etc.) and state the height at each site, if known[.], and the address, name, latitude and longitude, and structure owner.

5. How much physical capacity on each proposed structure will be available for [co-location] attachments by other service providers? Will antenna space be offered to other parties for rent? If one or more potential tenants have expressed an interest in the site, who are they?
6. Any other information relevant to the County tower database.

COMCOR 02.58E.02 [Telecommunications] Transmission Facilities Coordination Fees

02.58E.02.01

The non-refundable fees applicants must pay for the review and coordination of the siting of [telecommunications] transmission facilities are:

Charge Categories

1. Annual fee \$500.00 - Fee to be paid when the annual plan is submitted. The annual fee is charged for updating and maintaining the database, oversight, and the review of the annual plan.
2. [Minor] Modification \$500.00 -The application fee for any of the following minor modifications that require a building permit:
 - i. a modification of existing antennas at a single site; or
 - ii. the addition of antennas at a single existing site; or
 - iii. a change or addition of equipment at a single existing site.
- [3. Multiple Modifications \$1,500.00 - The application fee for any of the following multiple modifications that require a building permit:
 - i. a modification of antennas at two or more sites; or
 - ii. the addition of antennas at two or more existing sites; or
 - iii. a change or addition of equipment at two or more existing sites.]
 - [4] 3. [Co-location on existing structure] Attachment to Existing Structure \$1,000.00 - The application fee for the use of an existing structure to support new antennas permitted by right or as a limited use under the zoning ordinance.
 - [5] 4. New support structure, permitted use \$2,000.00 - The application fee for the construction of a new antenna support structure that is permitted by right or as a limited use under the zoning ordinance.
 - [6] 5. New support structure, [special exception] conditional use, County-owned or mandatory referral \$2,500.00 - The application fee for the construction of a new antenna support structure that must be [authorized] approved as a [special exception] conditional use, is
